RA377b

If you become very sick, or have a serious accident and cannot talk to your doctor about your own treatment...

Who will help make medical decisions for you?

How will they know what you want?

**Advance Care Planning is a process of planning for your healthcare, for a time when you cannot make or communicate your decisions.**

**ADVANCE**

**CARE**

**PLANNING**

**Appoint an agent**

You can appoint someone you trust to make decisions for you when you are unable to do so.

This person may or may not be a family member.

**Chat and communicate**

Talk to your family, friends and doctors about your values, beliefs and healthcare preferences. Tell them about what is important for you.

Also, talk to your doctors or other health professionals to find out more about what might be ahead.

**Put it on paper**

If there is something you feel strongly about, you can write it down in a written plan or directive, or in a letter describing your healthcare preferences.

**For more information - see over the page.**
